PROFESSIONAL SUMMARY

Dedicated cybersecurity professional with a focus on safeguarding digital ecosystems and cloud infrastructure. Currently pursuing an **MBA in Cyber Security** and a **Specialist Diploma in Cyber Security Management**, demonstrating a commitment to advanced technical and strategic expertise. Proven ability to identify critical vulnerabilities in cloud configurations and a strong foundation in Network Security, Digital Forensics, and Incident Response.

TECHNICAL SKILLS

- **Security:** Network & System Security, Digital Forensics, Incident Response, Security Operations.
- **Cloud & DevOps:** Microsoft Azure, AWS, SCCM Tools, Cloud Architecture.
- **Tools & Systems:** Linux (LPI Essentials), Python, Nmap, Netstat.
- **Languages:** English (Native/Bilingual), Malay (Native/Bilingual), Arabic (Elementary).

CYBERSECURITY & IT EXPERIENCE

RAiD (RSAF Agile Innovation Digital) | Cybersecurity Intern (Cyber Defence Branch) August 2025 – Present

- Contributing to the protection of digital infrastructures through hands-on cybersecurity operations.
- Engaging in real-world security challenges and collaborating with industry professionals to sharpen technical defenses.
- Developed a hybrid orchestration architecture for threat intelligence integration (Project: sbom_lambda).

WSG Energy Services | *Data Coordinator April 2023 – October 2023*

- **Vulnerability Discovery:** Identified a critical cybersecurity risk in a Microsoft Azure Cloud configuration within Asset Integrity Management (AIM) software.
- **Risk Mitigation:** Pinpointed exposed public security controls causing latent traffic between Singapore and the UK, leading to strengthened data security practices.
- Managed master tag lists and system performance upgrades for complex engineering projects.

Generation Singapore | *Cloud Support & DevOps Trainee November 2024 – February 2025*

- Completed a comprehensive bootcamp focused on real-world industry scenarios and hands-on DevOps projects.

Alpha Synergy International | *Assistant IT Engineer January 2015 – December 2016*

- Executed Tech Refreshes and managed large-scale laptop deployments using SCCM Tools.
- Resolved incident reports within strict SLAs while supporting the AVA IT Department.

EDUCATION

- **MBA in Cyber Security** | Xaltius Academy (In collaboration with BHS Switzerland) | *Expected June 2026*
- **Specialist Diploma in Cyber Security Management** | Singapore Polytechnic | *Expected Sept 2026*
- **Specialist Diploma in Cloud Computing (Architecture)** | Singapore Polytechnic | *October 2022*

CERTIFICATIONS

- LPI Linux Essentials
- Technical Support Fundamentals

- AWS re/Start Program
- The Fundamentals of Digital Marketing
